

SOUTH CENTRAL PENNSYLVANIA WOOD TURNERS

We are a group of individuals, ladies and gentlemen, who are interested in using a lathe to turn wood. Established in 1993 by Valen Frye and Dick Diehl and have grown to a group of active members totaling 60 people. We are a charter member of AAW (American Association of Woodturners). Some members are associated with other clubs and Guilds. We are devoted to helping novices and one another to learn about wood turning. All people, with varied skill sets are welcome to join us and share your expertise or avail yourself to our expertise. If you need "hands on" training we can have a special class or match you up with one of our members.

Our meetings are the **first Tuesday** of each month. Our July meeting is a club picnic and our December meeting is a trip to other clubs. A newsletter is published on our web site listing our monthly events, "show and tell" and other topics.

A typical meeting consists of a brief business meeting discussing old, new and upcoming events. We have a "show and tell" of what we have made and share tips on how to do something easier. Next we have one of our members demonstrate an area of his/her expertise or have a guest professional demonstrator. We also discuss tools, holding devices, sharpening, turning skills, wood types, wood drying, finishing, and the making of our own tools. Most members are willing to help new and fellow members solve their woodturning challenges.

Come join us as our guest, at any meeting to see if you would like to join. Individuals under 18 years of age must be accompanied by an adult. Our current dues are \$30.00 annually which we use for rent, purchasing supplies, maintaining club equipment and obtain professional Wood Turners to demonstrate. For further information contact:
