### **Program For The Month:**

This month's program will be on sharpening tools. Jerry has a few different kinds of sharpening set-ups so all you need to bring are your tools you want to sharpen. This will give you the opportunity to try different kinds of sharpening systems and also to get those tools ready to use.

There will be a wood auction and don't forget to bring some items for show and tell. We've been having a wonderful turnout on the show and tell table-let's keep up the good work.
